I am working in this hospital as a Sr. Perfusionist since May 2006. I have resigned from post & I am leaving from 20th January 2013. I would like to work here as a Visiting Perfusionist to help my colligues.

Perfusionist is getting around Rs. 5,000/- per case. Please consider me.

With reference to above we would like to state as follows :

The current status of the project is as under:

- a) The Civil works are completely halted at site and unless and until a new contract is in place the works cannot resume.
- b) The works of M/s Laservision are entirely dependent upon completion of the Civil works. Due to the status of the Civil works being incomplete and stalled, the works of Laservision going ahead is of no use to the project.
- c) The stages completed by Laservision as per Annexure B of the contract are 1 through 8. Out of these stages 5 & 6 are have been submitted by Laservision in Nov & Dec 2012 and become due and payable after our certification. We have received all Design Phase deliverables but not yet certified the same.
- d) Once these are certified The payment against these stages 5 & 6 become due and payable. Certification of the design phase drawings and specifications at this stage is of no use to the project, Sansthan or to Laservision since nothing further can be done. Although it would complete the stages 5 & 6 for them and the payment falls due.
- e) Stage 9 is the stage for purchase of Equipment. This stage cannot be initiated by Laservision at all since within three months they will have to bring the entire equipment for installation at site. The installation cannot take place. Further against the payment made for stage 8 for commencement of Visual production, Laservision has not started anything knowing fully well the situation of the Civil Works.

It can be said that M/s Laservision has cooperated throughout this phase of nearly non construction by stretching their dates as far as possible. However it would be fair if the Sansthan communicates to M/s Laservision to stop all its activities till further notice.

Unless and until the process of reselection of a Civil contractor is in place and the Civil contractor has completed the works of the basement roof of the main structure M/s Laservision needn't continue with their part of the works. As per the time schedule Annexure 'F' the time required from Stage 9 (Equipment purchase order) to stage 13 (practical completion) is only 26 weeks which includes delivery, installation, testing & commissioning of all equipment. Infact the visual production (stage 8) can move simultaneously upon restarting of the works.

The works of M/s Laservision are governed by the contract they have with the Sansthan. The contract dated 12th May 2011has provisions for such situations.

As per the contract the following is applicable and action should be taken accordingly:

- 1. As per clause 6 the Trusts' obligation include providing the Civil Works and all other works and also as a continuous project. But due to failure of the Civil
